

America

There is pain in the world we live in and the tears may often flow,
But like the rain that brings the flowers,
The tears are there to help us grow.
I know inside the world is hurting and there are tears we all will cry,
But everyone will leave this world and everyone will one day die.
God offers grace to all who live here and he offers it to you.
It's your choice to find peace, when your heart is broke in two.
Love and hope are gifts He sends us. You can't hold them in your hand.
They are life's jewels that last forever and they help you take a stand.
Take a look at the world around you. In the darkness stars twinkle bright.
When your life is at it's darkest, God wants to be your shining Light.
America is in such turmoil. Unemployment has reached a high.
There are wars that kill our children and without God we all will die.
Wake up America! You still have time now.
Bend your knees and say a prayer.
Ask God to save our precious nation. Only He can your life spare.
Our nation was built on a strong foundation.
America's leaders knew how to pray.
"In God We Trust" was what they believed in.
It's now our turn to live that way.
I love America and the things she stands for.
We all are family. Please take my hand.
God, please, heal our broken nation and restore hope in this great land.
