

## **Let's Celebrate Christmas**

**Come everyone and gather 'round.  
Raise your hands and stomp the ground!  
Keep looking up and you will see  
The bright star of the Nativity.**

**Let's celebrate Christmas here on earth  
And remember it's the day of Jesus' birth.  
He was born in a stable and later died for our sins.  
You see, when this life stops, real life begins!**

**God will bless each and everyone.**

**He loves us all as he loved his son.**

**So wipe those tears and dry your eyes.  
Speak from the heart and don't criticize.**

**You live this life only once, you see,  
So make it the best that it can be.**

**I thank God you are here and ask him, too,  
That he will bless all the things you do.**

**Remember always how much I care.**

**Though I may not see you, my heart is there.**

**We may be family or we may be friends,  
But you still are my blessing until life ends.**

**Then I will see you in heaven above**

**Where Christmas is eternal and so is love.**

**Merry Christmas! Have a Blessed New Year.**
