

Merry Christmas

Thank you, Dear Father, for that first Christmas Day
And giving us your son to take our sins away.
How can one comprehend all the love you have inside
To give Jesus to the world and to have him crucified?
It's sad to think how little we give to our fellowman.
It's sad that those who need our help can die in distant lands.
Please help us all to love one another and spread it all around.
As a nation we are strong, but it's the love that keeps us bound.
I want to thank you from the heart for friends and family
And for the brief encounters with those I rarely see.
Each one has touched my life
In ways they may not know -
I am a better person
And they helped my faith to grow.
My love I send to each of you.
Thanks for the time we share.
Keep looking up. Don't give up hope
And have a blessed New Year.
