

### **We'll Be United**

**When it is day, I will look toward the heaven.**

**When it is night, I will picture you're here.**

**I will relive each and every memory,  
because I know it will help you stay near.**

**The world may have taken your body  
and through death we may be apart,  
but I know that you are safe in heaven  
so it's time for this pain to depart.**

**From now on I will enjoy every hour.  
It gives me time to prepare for the day  
when I, too, will be with you in heaven,  
but for now you must be on your way.**

**I will miss you and love you to pieces.**

**Death can't destroy the bond that we share.**

**I know one day we'll be united in heaven,  
but it'll be God's time before I get there.**

**Until then, I love you!**
