

Enjoy the Little Things

**Enjoy the little things in this life
and the things that you can't see -
like love and precious memories
and this wish that comes from me.**

**All the games and fancy cars
or the houses with 3 floors
are great to have, but will mean nothing,
if you don't have love and more.**

**There's value in the friends you make
and the times that you can share.
Treasure the things that money can't buy
and show others that you care.**

**Sit down and take time with your family,
because in the blink of an eye,
their time on earth may be over
and then you'll wonder why.**

**Live your life and share the happiness
today and all year through,
but most of all share God's love
and say a prayer or two.**
