

God's Family

**A family is a blessing God sends from above.
He uses each member to show you his love.
There are some with a mother, a father and son,
But in others live a mother and daughter as one.
It doesn't make a difference if they're big or they're small,
Because it's the love that they share and the memories they'll recall.
Think of a puzzle, are they all the same size?
Just because some are small, is the design compromised?
Each piece in that puzzle is needed, you see?
That means you're a part of the world's destiny!
I guess what I'm saying in a round about way,
"Let us love one another on this blessed Christmas day."
Take time for a Stranger so it touches their heart,
Because the world is God's puzzle so we each have a part.
If today finds you troubled with heartache and pain,
Do not fret, just be patient, the good times remain.
God is defining each rough edge so it fits perfectly.
Great times are ahead and you'll live happily.
Just remember God loves you because "you are you".
Now fulfill your life's purpose as He made you to do.
We all are God's family created in love –
Join hands and sing praises to our Father above.
God loves you as I do. I am so glad you're here.
Merry Christmas with Love and a Blessed New Year!**
