

### **Thanks for Being You**

**Where are you, Dad? What are you doing today?  
Are there holiday's in heaven? Do you have a Father's Day?  
I'd think everyday is Father's Day,  
When you live with God above.**

**It's a joyous celebration,  
When you're surrounded by His love.**

**I know here on earth that we only have one day  
To honor earthly father's by what we do and say.  
I love you so much, Dad. I miss you so much, too.  
Thanks for all the time God let us share.**

**Thanks for being you!**

**You left with me a part of you that lives within my heart.  
There are things you taught me as a kid  
That has bonded us from the start.**

**I stand tall in adversity and I won't start a fight,  
But if someone needs help I will do what is right.**

**Dad you stood up for the least of these.**

**You helped when you could.**

**There was never a time you used the word "should."  
Happy Father's Day, Dad! I know you'll have a great day.**

**I asked Jesus to hug you since I can't today.**

**One day I will see you and then you will know -  
I am a reflection of your life and I'm letting it show!**
