

Why Do You Worry

**Why do you worry as you go about your day?
Why do you worry that things won't go your way?
Why do you worry about the days that lie ahead?
Why do you worry and make each day to dread?
Why do you worry about things now in the past?
Why do you worry the good times will not last?
What if just today you would trust our God above
And not worry about tomorrow,
Because it's filled with all His love?
You can worry every day. The choice is up to you,
But it's really a waste of time,
When the worry's rarely true!**
